Subject: Meeting with NCI
Date: 08/17/2009 12:02 PM

I just spoke with Laura Beane-Freeman. She had already polled her people about holding a meeting at NCI this week. I proposed meeting on Wednesday afternoon at NCI. She tentatively thinks that would be fine. She is available all week. Aaron Blair is out of the country this week and will return next week. Jay Lubin is available this week, but will be out of the country next week. She may have Michael Hauptmann on the telephone since we will be discussing his 2003 paper. Bob Hoover, the program director, will likely attend, and so might Trish Stewart. I promised to provide her with a list of our attendees prior to the meeting
